

# The Whale Museum's Summer Lecture Series

## Killer Whale Diseases: What we Have Learned From a Decade of Strandings

at **The Whale Museum** | 7pm | August 4

**Dr. Joe Gaydos**

**Dr. Joe Gaydos of the SeaDoc Society and San Juan County Marine Mammal Stranding Network will present a talk entitled “Killer Whale Diseases: What We Have Learned From a Decade of Strandings.” Dr. Gaydos has a veterinary degree from the University of Pennsylvania and his PhD is from the University of Georgia. He has studied health and disease in wildlife all over the world.**

The Whale Museum's Lecture Series is dedicated to providing our local community and visiting public with knowledge and wonder of the natural world. The lectures are given by local or visiting experts in their field. Join us as they share their recent research projects, stories, and experiences.

Each lecture is free but donations are greatly appreciated. The proceeds from your generous donations are crucial to our research and education efforts.

**Next Lecture - August 11, 2010, 7 p.m: Amanda Taylor  
“Results From the San Juan Islands Archaeological Project”**
